The range

Nextra Iconic washers

The ultimate in performance and wash control. Our easy-to-use inter@ct display helps you set the programme and keeps you informed throughout the cycle.

Nextra

Mega Load washers

An extra large 7.5 kg load capacity means considerable savings in time and effort. Perfect for when your washer is always on the go.

Nextra washers

Our new Optima Wash System optimises performance whilst the 'Automatic Load Control' keeps water and electricity usage to a minimum.

Easy Logic washers

Time and energy saving options combined with Hoover quality and reliability represent unbeatable value for money.

Relax

take it easy...

Hoover is all about making your life easier, wherever you are in your home.

Everything is within reach, and available at the touch of a button, from washing your clothes to cleaning your home. Always there, yet blending with your lifestyle. Understatement on the outside belies sophistication on the inside. Built into every Hoover product is the intelligence which comes from experience, delivering the performance you demand, whilst taking care of the everyday chores you prefer to forget about. Every day, Hoover take a close look at how your life could be made that little bit easier.

Today we offer our largest washer load ever to reduce the time and effort you spend on washing your clothes. Programmes and options are precision designed to clean more effectively whilst caring for the most delicate fabrics. And our Mega Load dishwashers offer a massive 15 place setting capacity.

Tomorrow...

...only one thing is for sure. We'll be there, doing our best to make life even easier.

Nextra Iconic dishwashers

A 'Countdown' display and electronic controls make the Nextra Iconic one of the most advanced dishwashers around.

Nextra Mega Load dishwashers

Ingenious use of space with the unique 'Maxi-Flex' basket means Nextra Mega Load can take a massive 15 full place settings.

Easy Logic dishwashers

7 programmes and 5 wash temperatures mean Easy Logic represents unbeatable value.

Slimline dishwashers

When space is tight, a Hoover Slimline dishwasher at just 45 cm wide is the perfect choice.

Innovation

to make life easier...

Optima Wash System

Our most advanced wash system ever

Advanced design, construction and software make Hoover washing machines highly intelligent and sophisticated.

The new 'Optima Wash System', incorporated into all Nextra and Nextra Mega Load washers and washer dryers, is a

perfect example. **Highly advanced electronic controls continually monitor, assess and adjust a whole range of processes to give you the optimum performance for every wash.**

Optimal wash temperature control

– wash temperature is monitored up to 200,000 times to ensure a constant temperature is maintained for optimum cleaning performance.

Optimal spin

– an improved spin process ensures more water is removed allowing for a quicker drying time. With Hoover Nextra washers it is not just the spin speed which is important, but also the way in which the spin speed is profiled, providing the right mix of speed AND care to give you optimum results.

Optimal water usage

– automatically adjusts the water level throughout the cycle according to the fabric and load being washed.

Optimal detergent utilisation

– the detergent is directed to the heart of the wash to ensure optimum cleaning performance with minimal waste.

Optimal drum distribution – ensures the drum revolves at just the right speed to keep garments in contact with each other to help achieve optimum cleaning.

Available on selected ranges.
Look out for the Optima Wash System logo to identify ranges incorporating this feature

GENERATION FUTURE

Nextra Mega Load - Size Matters

7.5kg capacity - 25% Extra

Today we wash larger loads, more often. Nextra Mega Load incorporates an extra large drum, resulting in a massive 7.5 kg load capacity – 25% more than our Nextra 6 kg machines. Yet the Automatic Load Control ensures economic use of water for smaller loads. Big load or small, Hoover washes it all. The exceptional 7.5kg wash load is available on all Nextra Mega Load washers, and selected Nextra Iconic washers and Nextra washer dryers.

NEXTRA MEGA LOAD

Available on selected ranges.
Look out for the Nextra Mega Load logo to identify ranges incorporating this feature

Inverter Wash Technology

{available on all Hoover Nextra Iconic washers}

Our quietest wash ever

A major innovation on our new Nextra Iconic washers is 'Inverter Wash Technology' – an advanced brushless motor which is far quieter than conventional motors, delivering 'Super Silent' performance. It's the quietest Hoover wash ever.

Inter@ct display

{available on all Hoover Nextra Iconic washers}

Advanced – easy to use

NEW Inter@ct display – you

can interact with your Nextra Iconic so you are always

in complete control. The new Inter@ct display assists you when programming, and keeps you informed right through the cycle. And best of all, it's in plain English, not complicated symbols.

Inter@ct simplicity – the Inter@ct display highlights the two most important options, spin speed and temperature, so you can quickly select their status.

Inter@ct control – offers a 'child lock' preventing accidental opening of the door.

Inter@ct convenience – the 'Programme Countdown' indicates exactly where you are in the programme.

Advanced programme options

{available on all Hoover Nextra washers}

Cleaner washing with care

'Sensitive Care' option – combines a deeper than normal wash level and 5 rinses to deliver gentler washing and thorough detergent removal for especially delicate fabrics, and is perfect for people with delicate skin. This option is selectable with all cotton and synthetic cycles.

'Stain Blaster' option – tackles stubborn stains by maintaining wash temperature throughout the cycle. You can select this option on all cotton cycles.

Nextra Iconic delivers the most advanced technology ever in a Hoover washing machine. A sophisticated, yet easy-to-use Inter@ct LCD display makes programming interactive, and provides information about the point reached in the programme cycle.

The new 'Inverter' motor is brushless, and our quietest ever.

And with a choice of wash loads and spin speeds, there's a Nextra Iconic washer that's ideal for even the most discerning user.

Add the superb performance of the Hoover 'Optima Wash System' and we'll be surprised if you can find a more sophisticated washer anywhere.

Inter@ct convenience – the 'Programme Countdown' indicates exactly where you are in the programme as it progresses.

INVERTER WASH TECHNOLOGY

NEW 'Inverter Wash Technology' – you will hardly know your Nextra Iconic is running. An advanced brushless motor is far quieter than conventional motors, delivering 'Super Silent' performance. It's the quietest Hoover wash ever.

OPTIMA WASH SYSTEM

The new 'Optima Wash System' – incorporates sophisticated electronic controls which constantly monitor and adjust each and every load as it is washing, giving you optimum wash performance.

LOAD SIZE OPTIONS

2 load capacities – you choose. A large 6kg load capacity, or a massive 7.5kg Mega Load.

CLOTHES CARE OPTIONS

'Sensitive Care' option – combines a deeper than normal wash level and 5 rinses to deliver gentler washing and thorough detergent removal and is perfect for people with delicate skin and children's clothes. You have the choice of selecting this option with all cotton and synthetic cycles.

'Stain Blaster' option – helps tackle stubborn stains and is selectable with all cotton cycles.

GENERATION FUTURE

NEXTRA MEGA LOAD washing machines

Today we are washing bigger loads, and more frequently. Nextra Mega Load incorporates an extra large drum and advanced software, resulting in a massive 7.5 kg load capacity – 25% more than our Nextra 6 kg machines.

Yet the Optimal Load Control incorporated into the 'Optima Wash System' ensures economic use of water for smaller loads.

More time for you

'COUNTDOWN' DISPLAY & 'DELAY START'

'Countdown' display – at-a-glance indication of the time remaining on any wash cycle, so you can manage your time more efficiently.

'Delay Start' – set a programme to begin up to 9 hours later so damp clothes are not left too long before drying, and to take advantage of cheaper, off-peak electricity.

TIME SAVING SYSTEM

'Time Saver' option – saves up to 50 minutes on selected programmes.

59 minute 'A' Wash – an unbeatable 'A' Wash standard in under an hour.

Daily 29 and 44 minute programmes at 40°C

– two very clever wash cycles at the most popular wash temperature. Wash a smaller load in under half an hour, or a larger load in less than 45 minutes.

Performance Guaranteed

OPTIMA WASH SYSTEM

Optimal drum distribution – ensures the drum revolves at just the right speed to keep garments in contact and achieve optimum cleaning.

Optimal wash temperature control – wash temperature is monitored up to 200,000 times to ensure a constant temperature is maintained for optimum cleaning performance.

Optimal spin speed – an improved spin process ensures more water is removed allowing for a quicker drying time. With Hoover Nextra washers it is not just the spin speed which is important, but also the way in which the spin speed is profiled, providing the right mix of speed AND care to give you optimum results.

Optimal detergent utilisation – the detergent is directed to the heart of the wash to ensure optimum cleaning performance with minimal waste.

Optimal water usage – automatically adjusts the water level throughout the cycle according to the type of fabric and the size of the load being washed.

UNBEATABLE PERFORMANCE

'A+' Energy efficiency – all Nextra 6 kg washers achieve 'A+' Energy efficiency, the highest available and 10% better than the best 'A' rating.

New 'AA40' wash cycle – 'A' Wash performance and 'A' Energy efficiency at the most popular 40°C wash temperature.

Complete care of your wash

CLOTHES CARE OPTIONS

All Nextra models incorporate features specially designed to take extra special care of your clothes whilst maintaining optimum performance.

'Sensitive Care' option – combines a deeper than normal wash level and 5 rinses to deliver gentler washing and thorough detergent removal and is perfect for people with sensitive skin and children's clothes. You have the choice of selecting this option with all cotton and synthetic cycles.

'Stain Blaster' option – helps tackle stubborn stains and is selectable with all cotton cycles.

NEXTRA MEGA LOAD washing machines

Nextra Mega Load washes more for less – up to 25% more than Hoover 6kg washers. And because you wash less often you save on water, electricity and detergent.

But performance is not compromised. A whole host of advanced programmes and options deliver superb cleaning results.

A choice of spin speeds means there's a Nextra Mega Load model for every family.

7.5KG MEGA LOAD

Extra large drum – 25% bigger than Nextra 6 kg machines. Big or small, Hoover washes it all – whether you have an extra large load or more standard wash. Automatic load control automatically adjusts the water level throughout the cycle according to the fabric and load being washed.

TRIPLE 'AAA' PERFORMANCE

Triple 'AAA' performance – Even with a massive Mega Load there is no compromise on performance on the 1400, 1500 and 1600 rpm models. They are rated 'A' for wash, 'A' for energy, and 'A' for spin performance.

CHOICE OF SPIN SPEEDS

OPTIMA WASH SYSTEM

The new 'Optima Wash System' incorporates sophisticated electronic controls which constantly monitor and adjust each and every load as it is washing, giving you optimum wash performance. It even automatically adjusts the water level throughout the cycle according to the fabric and load being washed, so you also economise on smaller loads.

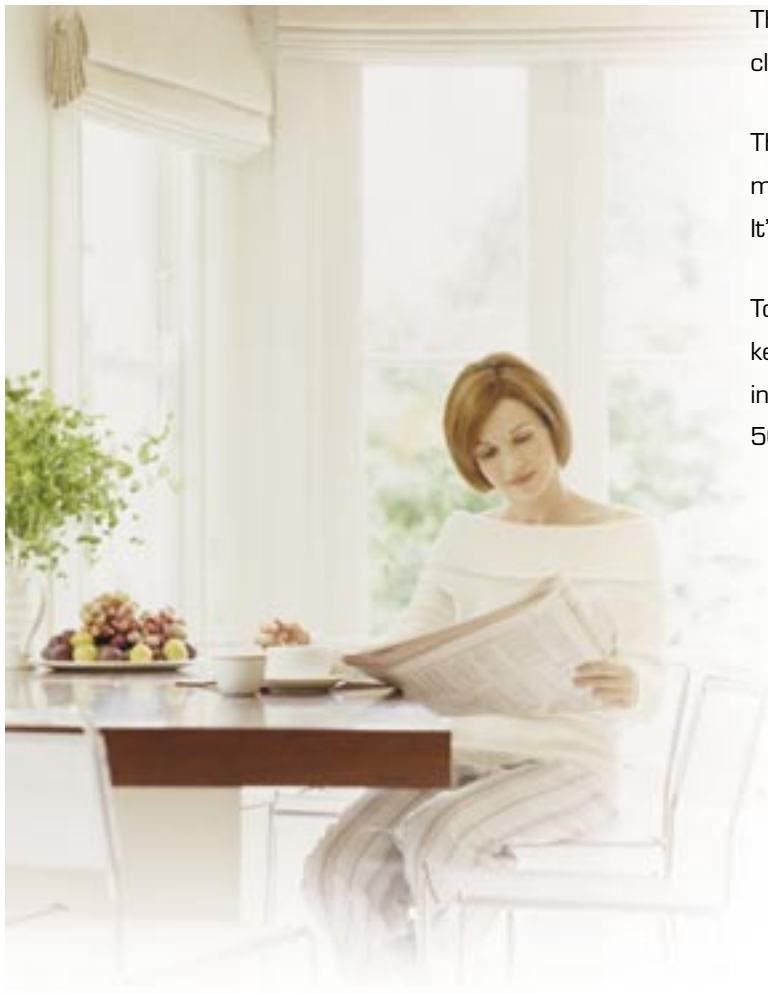

CLOTHES CARE OPTIONS

'Sensitive Care' option – combines a deeper than normal wash level and 5 rinses to deliver gentler washing and thorough detergent removal and is perfect for people with sensitive skin and childrens' clothes. You have the choice of selecting this option with all cotton and synthetic cycles.

'Stain Blaster' option – helps tackle stubborn stains and is selectable with all cotton cycles.

The latest Nextra washing machines combine optimum cleaning performance with superior clothes care.

The new Hoover 'Optima Wash System', automatically makes thousands of adjustments during the wash and spin. It's like having a laundry expert monitoring every stage.

To make life even easier, The Nextra 'Countdown' display keeps you informed of cycle time remaining, and when you're in a real hurry, the 'Time Saver' option saves up to 50 minutes on any programme.

Easy Logic washing machines

Easy Logic is a fully featured range of washing machines providing exceptional value-for-money.

An ingenious 'Time Saver' option saves up to 50 minutes on selected programmes, whilst an automatic Half Load saves time and water for smaller loads. A choice of 1100 to 1400 rpm spin models and a large 6kg capacity make Easy Logic unbeatable in its price range.

More time for you

TIME SAVING SYSTEM

Because clothes are being washed more often and tend to be less soiled, Hoover Easy Logic is designed with a wide range of features to save you time without compromising performance.

'Time Saver' option – saves up to 50 minutes on selected programmes.

59 minute 'A' Wash – an unbeatable 'A' Wash standard in under an hour.

Daily 29 and 44 minute programmes at 40°C

– two very clever wash cycles at the most popular wash temperature. Wash a smaller load in under half an hour, or a larger load in less than 45 minutes.

Wash Progress display – at-a-glance indication of the stage the wash has reached, so you can manage your time more efficiently.

Performance Guaranteed

FEATURES TRIPLE 'AAA' PERFORMANCE

Easy Logic delivers exceptional performance on all models, with the top-of-the-range 1400 rpm model achieving an unbeatable Triple 'AAA' for wash, energy and spin efficiency.

Fast spin speeds from 1100 to 1400 rpm – not only fast spin speeds, but a spin cycle profiled to extract as much water as possible whilst caring for fabrics.

Auto Half Load – regardless of the clothes you put into each wash, Easy Logic automatically adjusts to use just the right amount of water for each load, saving water and economising where possible.

Complete care of your wash

CLOTHES CARE OPTIONS

For garments that require extra special care, Easy Logic incorporates a whole host of programmes and selectable options to take special care your fabrics.

2 delicate 'Woollens' cycles – exceptionally gentle with reduced agitation and slower spin speed.

'Silk Hand Wash' at 30°C – an extra gentle wash for maximum care.

'Sports Wash' at 30°C – a longer wash at low temperature to remove the after effects of high energy activity from expensive, yet colour sensitive sports gear.

'Super Wash' – an intensive wash for especially dirty items.

Variable spin speed – select a slower spin speed to suit the fabrics in your wash.

'Extra Rinse' – an additional rinse for thorough detergent removal from your clothes. Ideal for delicate or sensitive skin.

'Rinse Hold' – leaves clothes immersed in water awaiting the final spin, protecting fabrics and minimising creasing.

Hoover provide solutions to varying types of wash and dry requirements. For those who wash often, Nextra Iconic and Mega Load washer dryers wash a massive 7.5kg load, and dry an impressive 5kg. Nextra washes 6kg and dries 4kg to suit the average family. And Easy Logic still has a larger capacity than most standard washer dryers, washing 6kg and drying 3kg.

For the ultimate in convenience the Nextra 5+5 washes AND dries 5kg straight through, so there's no need to remove half the wash load when drying.

SENSOR DRY - FULLY AUTOMATIC

Most people overset the drying time for their washing. Now there's no more guesswork. All Hoover washer dryers incorporate 'Sensor Dry'. You simply select the degree of dryness you require, and the dryer switches off automatically when the level of dryness has been reached. Your garments are protected, and you use no more electricity than necessary. And in addition, all dryers can be set to a timed drying period, which is ideal for airing or quick drying.

You save time, water and electricity with the new Hoover washer dryers, without compromising performance.

NEXTRA '7.5+5' Iconic washer dryer

Cutting edge design and technology combine in our most advanced washer dryer ever. The Inter@ct display panel assists programming and keeps you informed of cycle progress. And 'Inverter Motor Technology' means you will hardly know it's running.

LARGE 7.5KG WASH/5KG DRY LOAD

Extra large drum – 25% bigger than Nextra 6 kg machines. Hoover Nextra delivers economic washing of extra large, standard and smaller loads. Automatic Load Control automatically adjusts the water level throughout the cycle according to the fabric and load being washed.

NEXTRA Mega Load '5+5' washer dryer

With most washer dryers the drying capacity is smaller than the wash capacity, so you have to remove part of the load before you dry.

A FULL 5KG LOAD STRAIGHT THROUGH

Now the Hoover '5+5' gives you the ultimate convenience of washing and drying a full 5 kg load straight through – no need to stop the wash cycle to split the dry load. You can just set it and leave it to deliver ready-to-wear, fully dried washing.

Ordinary dishwashers have two major drawbacks. They never seem to take enough in one load. And they lack the flexibility to take everything from cutlery to bakeware, dishes to pots and pans.

15 place settings

15 place setting Mega Load

Hoover Nextra dishwashers are intelligently designed to accommodate up to 15 place settings, and flexible enough to take a wide variety of loads.

Unique Maxi-Flex basket – 25% extra capacity

The lower basket of Hoover Nextra dishwashers is unique because it not only takes up to 25% more load, it can also accommodate a wider variety of dishwasher-proof items:

- cleverly shaped slots for plates
- simple front to back loading
- high sides for extra protection
- safe stops for extra security

'One touch' programme selection

Intelligent Nextra design means that when you turn the dishwasher on, a light illuminates the most popular wash cycle. All you have to do to select the programme is press the button once.

Unique 'Power Centre' system

Nextra intelligence knows no bounds. The heating element is located behind the a special tube on the rear wall. Not only is this safer, but it is also more efficient as water is heated more quickly with less heat loss, and is delivered more powerfully to the spray arms.

Delay Start and Wash Progress Display (Iconic models only)

An electronic display counts down the programme delay start before a cycle and displays the phase of the wash cycle during the wash. This gives you more control.

Satin Silver Finish option

Model HND325S adds the style and sophistication of a Satin Silver finish to enhance the most contemporary kitchens.

All Nextra dishwashers feature a 'Rapid Wash' in just 29 minutes for lightly soiled items, and a 'Half Load' to save time and electricity.

In addition, certain models have an ultra-high temperature 'Bactizero' cycle at 75°C eliminating 99.9% of bacteria that may be present. And to make life even easier, all models feature a low temperature 'Economy' 45°C cycle.

Exceptional performance

3 separate 'Autoclean' programmes on Nextra Iconic can take care of the cleaning automatically. 'Autoclean' measures how dirty the load is and decides the temperature, time and intensity of the wash.

59 minute 'A' wash

A special high temperature programme on Nextra Iconic also allows you to get the best wash performance possible – and in only 59 minutes.

HOOVER Nextra Iconic HND925

- 15 Place Settings
- LCD display
- Delay Start (23 hours)
- Unique Maxi-Flex basket
- One touch programme selection
- Time Countdown Display
- 3 AutoClean cycles
- 59 minute 'A' wash
- Flexi Load
- Economy Cycle
- 29 minute Rapid Wash
- Metal Grey baskets
- Easy Adjust basket
- 6 Programmes
- 5 Temperatures
- Time Saver Option
- Safe Stop baskets
- 15L/51 dBA

HOOVER Nextra Mega Load HND625

- 15 Place Settings
- Wash Progress Display
- Delay Start (9 hours)
- Unique Maxi-Flex basket
- One touch programme selection
- Auto 65°C programme highlight
- Metal Grey baskets
- Easy Adjust basket
- 5 Programmes
- 4 Temperatures
